

DELLA SIGREST

AI Systems, user engagement, and growth design at scale

dsigrest@gmail.com · 703.472.1799

Product designer specializing in AI-native systems, engagement, and growth at scale. At Reddit, designed for 110M+ DAU as the first or only designer across six rotations; defining strategy, shipping measurable outcomes, and building systems adopted across teams. Led cross-functional work with executive leadership, UXR, data science, and ML engineering across LLM-generated content, trust and transparency patterns, prompt workflows, ML ranking, notifications, inbox, sharing, and community growth.

EXPERIENCE

Reddit

Jun 2021 – Feb 2026

Product Designer → Senior Product Designer · Promoted twice (L2→L4/Senior)

Notifications & Inbox · Sep 2024 – Feb 2026

- First designer in ~6 years on core system driving daily engagement. Established engagement architecture adopted as 2026 cross-team roadmap. Unified notifications and chat into a single inbox, freeing navigation slot for platform redesign
- Led xfn alignment across four teams and executive leadership. Partnered with Design Systems on accessible inbox row components adopted org-wide
- Co-designed ML-driven ranking system with data science and MLE to balance competing objectives across non-deterministic outputs

Community Growth · Jan 2024 – Aug 2024

- First designer, de facto team lead. Built community lifecycle framework that secured continued org investment established team roadmap
- Owned strategic product thinking and cross-org design leadership. Onboarded PM and EM; transitioned to funded, staffed, team

AI Product Design & Trust Systems · Jun 2023 – Dec 2023

- Designed Reddit's first AI-generated product at scale (LLM-summarized topic pages). Defined trust and transparency principles for AI content; partnered with Design Systems on AI-generated content treatment
- Piloted cross-functional prompt design workflow (design × AI engineering × content) with evaluation rubrics for output quality and tone. Became the standard process for Reddit Answers and subsequent AI teams

Sharing & Distribution · Oct 2022 – May 2023

- Designed sharing growth loop with UXR and product: share sheets adopted org-wide across post types, native sharing patterns standardized; established design system for off-platform content
- Designed privacy controls (username hidden, profile visibility) that increased trust in sharing. Share preview standards library enabled scale across teams

Product vision mapping · Apr 2022 – Sep 2022

- Partnered with Head of Design to synthesize cross-org roadmaps into a unified product vision for incoming leadership

Chat · Jun 2021 – Mar 2022

- Shipped foundational chat improvements with UXR to unlock messaging as a viable channel. Defined the strategic role chat could play for individuals and communities; explored challenges of large-scale synchronous communication

Touchwood Labs

2020 – 2021

UX Designer

- Defined gestural interaction patterns, iconography, and ambient UI for a hardware-integrated productivity surface
- Partnered with engineering and manufacturing to navigate hardware constraints and development sequencing
- Work featured at TechCrunch Disrupt 2020

CodeVA / Full STEAM Ahead

2015 – 2019

Marketing Manager & Program Founder

- Founded girls' STEAM conference; grew participation 84% and funding 200%. Featured by Society for Science, CarMax, PepsiCo
- Built visual identity for Virginia's statewide CS education nonprofit. Managed brand and campaigns that secured \$1.1M in state funding

EDUCATION

University of Washington — MS, Human Centered Design & Engineering, 2021 · GPA 3.96

Graduate Award for Excellence in Engineering · IxDA Student Design Charette Finalist · Jumpstart #WorkTogether Fellowship · Democracy Design Jam Finalist

Virginia Commonwealth University — BFA, Communication Arts (Graphic Design), 2015

Virginia Press Association, 2nd Place for Illustration in Non-Daily Publications

SKILLS & TOOLS

Design at scale (110M+ DAU) · AI/LLM product design · Non-deterministic systems · Trust & transparency frameworks · Prompt design & evaluation · Growth experimentation & ranking systems · Engagement architecture · Design systems · Systems design · Strategic product thinking · Cross-functional program leadership · Interaction design · Mobile-first design · Rapid prototyping · User research · Accessibility · Figma · Mentorship
